

Astli in the Americas

Activity for cycle two students

This program conforms to the following objectives from the Quebec Minister of Education:

Cycle Two

Competence 1: To perceive the organization of a society in its territory

- Localization of said society and its territory
- Indication of elements of adaptations to the territory by the society.

Competence 2: To interpret change in a society and its territory

- Recognition of changes in the location of the territory
- Indication of changes in social and territorial organization

Competence 3: To be open to the diversity of societies and their territory

- Indication of differences in the location of territories
- Description of similarities and differences in the organization of societies and territories
- Indication of causes and effects of similarity and of differences

Knowledge and competence = Iroquois Society and Inca Society around 1500

The intended objectives of the McCord Museum

During this visit, the student in cycle two will...

- Observe certain differences and similarities in the way of life of Aboriginals from the northern east coast with Aboriginals of Mesoamerica in 1500
- Note the impact on these societies of territorial geography and availability of resources
- Discover the vast network of contacts between Aboriginals of North America and South America
- Be introduced to the Mayan numeric system and hieroglyphics
